NOVACARE JOB DESCRIPTION FRAMEWORK

Document status: Hypothetical internal company document. This document is designed for NovaCare's home-maintenance service model and should be reviewed against applicable Sri Lankan employment, privacy, occupational safety and other legal requirements before operational use.

Purpose

NovaCare job descriptions define the purpose, responsibilities, authority, reporting relationships and capability requirements of each position. They should be reviewed whenever the service model, technology or operational responsibilities materially change.

Field Service Technician

The Field Service Technician performs approved home maintenance tasks at customer locations. The role includes reviewing assigned job information, travelling safely to the location, confirming the service requirement, performing work according to technical and safety standards, recording job progress and reporting completion or exceptions.

Service Coordinator

The Service Coordinator receives and reviews customer requests, confirms relevant service information, communicates scheduling information, coordinates staff assignments and monitors open jobs. The coordinator should maintain accurate job records and escalate delays, customer complaints and operational exceptions.

Field Supervisor

The Field Supervisor supports service quality and field operations by monitoring assigned staff, reviewing difficult or escalated jobs, supporting safety compliance, assisting with technical or customer issues and providing feedback to management.

HR and Administration Officer

The HR and Administration Officer maintains employee records, supports recruitment and onboarding, coordinates leave and attendance administration, maintains HR documentation, supports training and assists managers with employee-related processes.

Operations Manager

The Operations Manager oversees service capacity, scheduling performance, workforce utilization, service quality, customer escalations and operational controls. The role is responsible for ensuring that field operations are aligned with company standards.

Common Competencies

NovaCare roles should generally demonstrate reliability, communication, customer orientation, teamwork, problem solving, integrity, safety awareness and appropriate technical competence. Role-specific qualifications and licences should be defined where required.
