NOVACARE RECRUITMENT AND SELECTION PROCEDURE

Document status: Hypothetical internal company document. This document is designed for NovaCare's home-maintenance service model and should be reviewed against applicable Sri Lankan employment, privacy, occupational safety and other legal requirements before operational use.

Purpose

This procedure establishes a consistent approach to recruiting employees for NovaCare's office and field service operations. It aims to ensure that staffing decisions are based on legitimate business requirements and relevant job criteria.

Workforce Requirement

The responsible manager identifies a staffing requirement based on workload, service demand, employee availability, growth, replacement needs or required technical capability. The requirement should be approved before recruitment begins.

Job Definition

The hiring manager prepares or updates the job description and identifies essential qualifications, technical skills, customer-service requirements, working-hour expectations, travel requirements and safety responsibilities.

Sourcing Candidates

Candidates may be sourced through appropriate job platforms, employee referrals, recruitment agencies, vocational institutions or other lawful channels. Recruitment communications should provide accurate information about the position.

Screening

Applications should be screened against objective job-related requirements. Candidates who do not meet essential requirements should not be advanced unless an approved alternative criterion applies.

Interview and Assessment

Interviews should use consistent core questions and job-relevant assessment criteria. Field service candidates may be assessed on technical knowledge, practical problem solving, safety awareness, customer communication and ability to work independently.

Reference and Verification

Where appropriate and legally permitted, NovaCare may verify employment history, qualifications, references and other relevant information. Candidates should be informed of required checks and information should be handled securely.

Selection

The hiring decision should consider the evidence collected during screening and assessment. The selected candidate should receive a written offer containing the applicable employment terms.

Onboarding

New employees should receive an induction covering company standards, job responsibilities, customer conduct, safety, data protection, attendance, communication procedures and relevant systems before independently undertaking assigned work.

Records

Recruitment records should be retained and protected according to NovaCare’s record-retention requirements and applicable privacy obligations.
